

Public Notice

Council and Ward Structure Review Public Consultations

The Township of Rideau Lakes is conducting a comprehensive Council and Ward Structure Review to ensure effective representation for all citizens.

The Review is considering:

- The method by which members of council are elected (i.e., in wards or at large);
- The size of council; and,
- The size, shape and number of wards.

Public consultation and feedback are integral to the Council and Ward Structure Review. Five public meetings will take place across the Township on August 27 and 28.

Please come out and have your say!

The drop-in format meetings will present background information about the Review as well as ward boundary and council structure options for public input. Residents are welcome to come and go anytime and to attend any of the five meetings.

Date	Time	Ward	Place
