(Signature of Registered Installer)

Notes to pit supplier and registered installer:

- Please be careful not to mix this material with any other product as the characteristic of the filter bed materials is easily changed.
- The issuance of the sewage system use permit is dependent on the completion and submission of this form and the noted invoices (weigh tickets).
- The supplier is responsible for ensuring this material meets the requirements of Ontario Building Code 8.7.5.3(3) Division B Part 8 at all times. Test results may be requested from time to time
